

# KRYPTON<sub>6</sub>

## The opinion of the Lab

The Krypton 6 is the smallest floor standing speaker of the KRYPTON range. Discreet by its silhouette, it is nevertheless formidable by its sound qualities.

The technical team has worked on each of the transducers to bring transparency and veracity to the sound message.

Thus, the tweeter (specially designed for the range) is composed of a "rear chamber" to capture the rear wave of the dome (and thus reduce its distortion), the midrange made of a 7th generation of Kevlar cone ensures incredible precision and detail for this price category.

Finally, the unique 13 cm (5 inch) woofer provides a fast and punchy bass.

It is mounted in a good volume that opens into a laminar port on the front panel, which makes it easy to position in the listening room.

Available in 3 trendy finishes, the Krypton 6 is proposed with a magnetic cover equipped with a heathered fabric of the most beautiful effect. The Krypton 6 can be easily positioned by adding a stand (included) that tilts the speaker slightly backwards.

Finally, the latter is equipped with a dense foam that will allow you not to scratch your floor. (however, spikes are provided for reverberant rooms).

3 different finishes :

**Bass reflex :** laminar port  
**Nom. power :** 100 W  
**Max. power :** 150 W  
**Number of ways :** 3  
**Number of speakers :** 3  
**Sensitivity :** 91 dB

**Frequency range :** 45-24000 Hz  
**Tweeter :** 28mm soft dome  
**Médium :** Kevlar 13 cm  
**Woofer :** 13 cm Cellulose  
**Impedance :** 4...8 ohms  
**Frequencies cut :** 400/4000 Hz
